HTML, CSS, Javascript,  
Python, React.js, Sass,  
Node.js, Express.js, Socket.io,  
MongoDB, Mongoose, SQL,  
React, React-Router, Redux,  
Figma, UI Design, CSS  
Animation, SVG

## Relevant Experience

### Freelance Web Developer & Maths Educator

*May 2023 till date*

Been upskilling myself for a fitting opportunity.

### Data Analyst

Cerebry

*Jul 2023 - Dec 2023*

- Worked closely with the Backend team to build Restful APIs using PostgreSQL and an exhaustive use of the Pandas library in Python.
- Cerebry being a platform that lets students practice Math problems, I implemented my knowledge of Statistics to quantify the relationship between students' progress and number of questions practiced.

### Web Analyst/Implementation consultant

Alabs(Now Scaletrix.ai)

*Dec 2022 - Jun 2023*

- As an Implementation consultant for the web analytics tool: Heap, I worked with International clients to achieve the most efficient implementation of the tool.
- I studied the DOM structure of the client's application and produced Javascript functions to be integrated with Heap APIs to capture product insights in the most meticulous manner.

## Projects

### [Buy-Busy Online Store](#)

**React Router, Redux, MongoDB, Express JS**

Buy-Busy is a web application for the customers of an e-commerce business that enables individuals to browse available items, add or remove them from their shopping cart, and complete the purchasing process.

### [Chatter-Up](#)

**SocketIO, MongoDB, Express JS**

Chatter-Up is an interactive real-time chat application, facilitating seamless communication and interaction between users.

### [StoreFleet](#)

**Nodemailer, Mongoose Middleware, Express JS**

StoreFleet is an instant product delivery service similar to Blinkit, Zepto, and Swiggy. Some prominent features of this project include - Welcome E-mail and Forget Password and Reset Feature using email OPT verification.

### [Marvel API App and More....](#)

**HTML, CSS, Javascript, DOM Manipulation**

Here are a few practice projects worth mentioning:

[Modern Music Streaming App Screen](#), [Alarm App](#), [Retro Music Player](#)
